FOREWORD

This edition of the Handbook of Indigenous Manufacturers of Chemical & Miscellaneous Stores, 5th in the series, brings the information contained therein up-to-date. As hitherto, capacities of the various licensed units have been indicated either in the list itself or in the Appendices, and name of manufacturers that make products according to I.S.I. Specifications have been brought out prominently. Factory Numbers allotted to the units borne on the list of D.G.T.D. have also been shown, against the respective firms, in the 'Index of Firms'.

This Handbook is expected to meet the need for an up-to-date reference book for industrial consumers especially when the paucity of foreign exchange has necessitated restricted imports of various commodities, to conserve foreign exchange.

For more specific information, where necessary, a reference may be made to the Directorate concerned in the Directorate General of Technical Development.
